| Fully integrated | 98% line efficiency |

PROUDLY MADE IN THE USA

SYSTEM SPECIFICATIONS:

CONTROLS:

- * Allen Bradley Compact Logix
- * Allen Bradley 700+ HMI

DRIVES:

- * Allen Bradley Power Flex 4 VFD
- * Kinetix 6000 Servos

ELECTRICAL:

- * 208/240/480 volts, 3 phase, 60 hertz

PNEUMATIC:

- * 3 SCFM @ 80 PSI

AVAILABLE MACHINE WIDTHS:

- 18", 22", 26", 30" to accommodate sizes

ANCILLARY EQUIPMENT:

- * Products stackers
- * Product turning devices
- * Lane dividers
- * Side load film racks
- * 270 degree swivel mounted HMI
- * Coding conveyors
- * Dual infeed designs

Collation and pusher area
Fully adjustable

Tunnel blower assembly
Easy maintenance access

Easy load film racks

Automatic systems for cartons, bottles, and tubes available

Why should *YOU* buy from American Packaging Machinery?

WE SHRINK YOUR PACKAGING COSTS!

- *Every machine component is designed with longevity, reliability and a minimum of operator involvement as its top priorities. To assure our machinery remains consistent from design to assembly, all engineering and manufacturing is done in-house.
- *Heavy-duty welded tubular steel frame provides a solid base to absorb and deflect *all* vibration. A stainless steel frame is also an available option!
- *Product handling and transfer aides are also designed in-house to provide gentle handling for each specific application
- *All profiles are stored in the HMI, along with all adjustments listed; providing fast, accurate change over for any skill level
- *Solid, hardened steel: One piece seal bar fully coated provides long-life with minimal maintenance
- *Our systems are designed for open sides, natural film enclosure OR positive side seal devices for complete film enclosure.
- *We are able to meet Category 3 and 4 safety protocol
- *Our electronic motion controls eliminates many parts; providing reliable service with less maintenance
- *The APM shrink tunnel design consists of the heat source, blowers and motors all mounted at the bottom of the chamber. This provides *immediate access* to parts for maintenance when necessary.
- *The five-inch thick mineral block insulated tunnel chamber provides reduced heat loss and maintains operator safety.
- *Intuitive Operator Controls allow for easy setup and change over!
